## MAGNETIC BELT KIT FOR CIPHERLAB RK25

*( Care / Carry - Magnetic holders )*

Material	Synthetic
Material	Metallic ( plate for magnetic holder )
Material	Neodymium ( magnets )
Size	Universal
Main colour	Black

## Kit for magnetic hooking of the PDA CIPHERLAB RK25 to the belt

**Its magnetic belt fastening system allows you to easily and quickly attach and remove the PDA from your belt whenever you need it.**

**You keep your hands free, without loss of efficiency, while minimising the risk of breaking your device!**

This kit comprises the following 2 accessories:

1. **a protective and carry slipcover made of high wear-resistant synthetic material ([SHOL-CIPRK25-M](#))**, fitted with:
  - a protective transparent plastic film for the keyboard and the screen, which does not affect normal touchscreen use
  - a metal plate incorporated in the back, allowing the terminal to be fixed to the belt on the magnetic holder ([SA-IDSMAGNETBELT](#))
  - a metal ring, to hang the terminal on the shoulder strap ([SHOL-STRAP1](#)), or on the retractable reel ([OS48-702](#))
  - 2 metal eyelets for fastening lanyards ([SA-MINISTRAP1](#) or [SA-HANDSTRAP1](#))
2. **a reinforced fabric holder with strong magnetic attachment system ([SA-IDSMAGNETBELT](#)) to be worn on the belt thanks to a loop sewn on the back**

Best used with our SILVERBACK belts: SA-VOCTXBELT-xx (xx available from size S to 3XL).

The shoulder strap ([SHOL-STRAP1](#)) and the belt are not included, to be ordered in addition if required.

**CAUTION: the magnetic holder [SA-IDSMAGNETBELT](#) is dangerous if used with a pacemaker**

Two other magnetic kits including the same accessories are available under the part numbers:

- [SK-CIPRK25-MB2](#): Protective slipcover + magnetic belt mount + shoulder strap
- [SK-CIPRK25-MB3](#): Protective slipcover + magnetic belt mount + retractable reel
